ABOUT ME

computer application student . I consider my self a responsible and orderly person. I am looking forward for my first work experience.

WORK EXPERIENCE

- **FACE DETECTION**

  Web app which can successfully recognise the faces off my friends using deep learning

- **HOUSE PRIDECTING PRICE**

  created a fully functional website which can predict the price of house in Bengaluru best on its location , area , no. of bedrooms . With an accuracy of 95%

- **Amazon clone (Fronted)**

  Developed an Amazon clone website using JavaScript for dynamic functionality and HTML/CSS for responsive design. Implemented key features like product listings, shopping cart, user authentication, and secure payment processing. Integrated APIs for product data and payment gateways. Demonstrated expertise in frontend development, e-commerce design, and user experience

- **Currency Converter**

  Built a real-time currency converter calculator using JavaScript for logic, and HTML/CSS for a clean, responsive interface. Integrated APIs to fetch live exchange rates, supported multiple currencies, and implemented error handling. Deployed the project online, demonstrating skills in frontend development, API integration, and user-centric design.
